Cadillac Dec 25 2019 The tail fin era is one of the most recognized in automotive styling, and the influence spread worldwide. As everyone knows, designer Harley Earl took his inspiration from

World War II fighter aircraft and the fins grew bolder and larger as competing manufacturers jumped on the bandwagon to produce the most striking vehicle, until they became almost outrageous and turned people off, and then became less prominent again through the 1960s. Cadillac: The Tail Fin Years, takes an in-depth look at the years from 1948 to 1964. A chapter is devoted to each model year and provides unique facts and features, historical information, specifications, production numbers, options, prices, and more. And of course, the real heart of the book is the many colorful illustrations drawn from the exciting original sales and marketing materials, original factory photos, and examples of well-preserved originals still around today. Often the models featured are those that we all wish we had! Also featured are the famous jewelry ads through this special era in automotive history.

**Funeral Service & Flower Cars Photo Archive** Sep 14 2021 Throughout history, flowers have accompanied the deceased to their final resting place. At first, flowers were carried in the hearse with the casket, or in a separate carriage. With the advent of the automobile funeral, flowers were transported to the church or cemetery in big touring cars with their tops let down. But in the 1930s an entirely new kind of funeral vehicle -- the Flower Car -- blossomed in America. Flower cars were built on all makes of chassis, from luxury Packards, Cadillacs, LaSalles and Buicks to Pontiacs and Chevy El Caminos. The only book ever dedicated to these unique professional cars documents the evolution of the flower car from the 1930s to the long, low coupes de fleur still being built today. A bonus feature includes a section on the other workhorse of the funeral home fleet, the Service Car,

which transported the deceased from home or hospital to the funeral parlor and hauled caskets and other funeral service paraphernalia to the church or cemetery.

*Cadillac Fleetwood Seventy-Five Series Limousines 1937-1987 Photo Archive* Apr 21 2022 From the late 1930s through the mid-1980s, it was truly the Cadillac of Cadillacs—the car of choice for the titans of American business, government and the entertainment industry. The stately long-wheelbase Cadillac Fleetwood Seventy-Five Eight-Passenger Sedan and Imperial Limousine occupied an exalted niche at the very pinnacle of the automotive pecking order in the U.S. and abroad. Whatever the destination—embassy, corporate head office, hotel, airport or Hollywood red carpet—when one arrived in a Cadillac Fleetwood Seventy-Five, one had truly arrived! Introduced in 1937, Cadillac's new Series 75 included 11 Fleetwood body styles ranging from coupes and convertibles to a seven-passenger touring sedan. In 1938, the restyled Series 75 got what was destined to become its signature body style—a severely formal long-wheelbase sedan and companion limousine. Cadillac Fleetwood Seventy-Five business sedans and limousines quickly won favor with commercial livery operators and funeral directors, challenging rival Packard's long domination of this small but prestigious market. By 1941 the Fleetwood Seventy-Five name was reserved exclusively for General Motors Corporation's flagship car—the long-wheelbase formal sedan and companion limousine with glass division.
