When a Girl Loves an Earl Mar 22 2022 What a girl wants... Miss Viola Darling always gets what she wants. Always. And what she wants more than anything is to marry James Kilbrenner, the Earl of Tannenbrook. She's fallen hard for the giant, taciturn, surly brute, and she positively will have no other. The problem? He's not interested. Not even a little. But Viola cannot afford to lose. And she has her heart set on James. If only he will bend to a bit of persuasion. Is an earl like no other... James Kilbrenner knows how determined the entirely-too-beautiful Miss Darling can be—the daft woman cornered him at a perfectly respectable dinner and mangled his cravat before he could escape. He has no desire to marry, less desire to be pursued, and will certainly not kiss her kissable lips until they are both breathless, no matter how tempted he may be. And only the right one will do... Thrown in her path by a meddling marchioness, James finds himself under sensual siege from a tiny, flirtatious sprite who puts both his heart and his vow to

remain unwed at risk. And when scandal looms, he learns the hard way that a man can resist only so long before the indomitable Miss Darling gets her way.

Making Sense of Data II Feb 21 2022 A hands-on guide to making valuable decisions from data using advanced data mining methods and techniques This second installment in the Making Sense of Data series continues to explore a diverse range of commonly used approaches to making and communicating decisions from data. Delving into more technical topics, this book equips readers with advanced data mining methods that are needed to successfully translate raw data into smart decisions across various fields of research including business, engineering, finance, and the social sciences. Following a comprehensive introduction that details how to define a problem, perform an analysis, and deploy the results, Making Sense of Data II addresses the following key techniques for advanced data analysis: Data Visualization reviews principles and methods for understanding and communicating data through the use of visualization including single variables, the relationship between two or more variables, groupings in data, and dynamic approaches to interacting with data through graphical user interfaces. Clustering outlines common approaches to clustering data sets and provides detailed explanations of methods for determining the distance between observations and procedures for clustering observations.

Agglomerative hierarchical clustering, partitioned-based clustering, and fuzzy clustering are also discussed. Predictive Analytics presents a discussion on how to build and assess models, along with a series of predictive analytics that can be used in a variety of situations including principal component analysis, multiple linear regression, discriminate analysis, logistic regression, and Naïve Bayes. Applications demonstrates the current uses of data mining across a wide range of industries and features case studies that illustrate the related applications in real-world scenarios. Each method is

discussed within the context of a data mining process including defining the problem and deploying the results, and readers are provided with guidance on when and how each method should be used. The related Web site for the series (www.makingsenseofdata.com) provides a hands-on data analysis and data mining experience. Readers wishing to gain more practical experience will benefit from the tutorial section of the book in conjunction with the Traceis™ software, which is freely available online. With its comprehensive collection of advanced data mining methods coupled with tutorials for applications in a range of fields, Making Sense of Data II is an indispensable book for courses on data analysis and data mining at the upper-undergraduate and graduate levels. It also serves as a valuable reference for researchers and professionals who are interested in learning how to accomplish effective decision making from data and understanding if data analysis and data mining methods could help their organization.

Good Food: Recipes for Kids Jul 14 2021 Preparing fresh and healthy dishes and then getting your child to eat them can seem far from an easy task for busy parents. With this inspirational collection of recipes taken from Britain's top-selling BBC Good Food Magazine, the Good Food team prove you don't have to devote hours to a hot stove to give your children home-cooked meals, and fast food doesn't have to mean deep-fried or mass produced. Full of quick, easy and nutritional recipes using practical ingredients, a nutritional breakdown so you know exactly what you're giving your child and full-colour photos of each dish, this compact cookbook is a must for parents.

Slimming World 30-Minute Meals Mar 10 2021 When you're feeling hungry or in a real hurry, it is so easy to opt for the quickest option. But fast food doesn't have to be junk food. 30-Minute Meals helps you to provide nutritious, wholesome food for all the family, not just those who are slimming, without getting stuck in the kitchen for hours on end. This book is full to bursting with more than 120 recipes based on Slimming World's acclaimed Food Optimising programme. Highlights among the soups and starters are hot and sour seafood soup, chive and mushroom quiches, or pink peppercorn and smoke salmon pâté. For filling snacks, try the skillet 'pizzas' or Tex-Mex tacos, or for a truly tempting salad choose between tiger prawns and asparagus or grilled calamari and rocket. Meat and fish recipes include roasted citrus chicken and pork and mango parcels, or try oven-baked sea bass with bacon and cherry tomatoes. There are some wonderfully tempting vegetable dishes, such as baked spinach gnocchi or basil and chilli linguini, while the dessert menu includes amaretti stuffed nectarines and cinnamon poached pears. Anyone interested in easy-to-prepare, full-flavoured and healthy food will find this book useful, whether they are slimming or not!

New Trends in Stochastic Analysis and Related Topics Jun 01 2020 The volume is dedicated to Professor David Elworthy to celebrate his fundamental contribution and exceptional influence on stochastic analysis and related fields. Stochastic analysis has been profoundly developed as a vital fundamental research area in mathematics in recent decades. It has been discovered to have intrinsic connections with many other areas of mathematics such as partial differential equations, functional analysis, topology, differential geometry, dynamical systems, etc. Mathematicians developed many mathematical tools in stochastic analysis to understand and model random phenomena in physics, biology, finance, fluid, environment science, etc. This volume contains 12 comprehensive review/new articles written by world leading researchers (by invitation) and their collaborators. It covers stochastic analysis on manifolds, rough paths, Dirichlet forms, stochastic partial differential equations, stochastic dynamical systems, infinite dimensional analysis, stochastic flows, quantum stochastic analysis and stochastic Hamilton Jacobi theory. Articles contain cutting edge research methodology, results and ideas in relevant fields. They are of interest to research mathematicians and postgraduate students in stochastic analysis, probability, partial differential equations, dynamical systems, mathematical physics, as well as to physicists, financial mathematicians, engineers, etc.

Force of Temptation Dec 07 2020 Harley Vincent is resigned to life in the human world. Sure, being a margay shifter is half her nature, but life among humans gives her the freedom to roam and do as she pleases. That is, until anti-shifter extremists target her, putting her life in immediate danger. When an old acquaintance and onetime fling, Jesse Dalton, shows up to offer the protection of his pack, Harley hesitates. She may have feelings for Jesse that go beyond their one-night stand, but life among shifters means giving over her independence to the needs of pack. Plus Mercury Pack has its own threat to face: a rich half-shifter is determined to claim their territory at any cost. Jesse, who lost his true mate as a child, has wanted Harley since their night together, and he's not letting her go again. They may not be destined for each other, but he knows she belongs to him and with his pack. Even if he can convince her to join him now, can he convince her to stay?"

Righteous Porkchop Oct 29 2022 Asked to head up Robert F. Kennedy Jr.'s environmental organization's "hog campaign," Nicolette Hahn Niman embarked upon a fascinating odyssey through the inner workings of the "factory farm" industry. What she discovered transformed her into an intrepid environmental lawyer determined to lock horns with the big business farming establishment. She even, unexpectedly, found love along the way. A searing account of an industry gone awry and one woman's passionate fight to remedy it, *Righteous Porkchop* chronicles Niman's investigation and her determination to organize a national reform movement to fight the shocking practices of industrial animal operations. She offers necessary alternatives, showing how livestock farming can be done in a better way—and she details both why and how to choose meat, poultry, dairy, eggs, and fish from traditionally farmed sources.

Manual of Inpatient Psychiatry Aug 15 2021 Inpatient units treat some of the most clinically challenging psychiatric patients. Clinicians must carefully balance patients' rights with safety concerns of violence and suicide. This updated manual is compact and practical, addressing the common questions and issues clinicians face in day-to-day practice. Chapters are organised around the diagnoses found on inpatient psychiatric units, allowing readers to find their area of interest quickly. A user-friendly question and answer format anticipates commonly asked questions, and tables provide easily accessible information, including diagnostic criteria and medication effects. Incorporating advances in the field over the past decade, chapters review new treatments including ketamine use and chronotherapy, as well as the most recent evidence-based approaches for patients with borderline personality disorder. Drawing on the authors' wealth of experience, their recommendations for best practice and their treatment philosophies will be valuable for all healthcare professionals working in mental health.

The Bite That Binds Nov 06 2020 It's just over a week until Sam will be Binding with Jared, and the only thing she wants is to spend that time relaxing and preparing for the ceremony. Unfortunately, she seems to be asking too much of fate, because suddenly she's lumbered with a number of distractions that have the potential to postpone, or even cancel, the Binding. There's a guarded fiancé to crack, a complicated assignment to deal with, Jared's ex to alienate, and a bunch of snobbish Master Vampires to win over - or offend, whichever. On the upside, things couldn't possibly be any worse, could they? Actually, yes they could. Due to a cruel twist of fate, something strange is happening to Sam - something that is changing her in ways she doesn't like or understand. With the help of Jared and those closest to her, she has to not only handle the threats to the Binding Ceremony, but find a way to fix what has been done to her - and fast. Warning: This book contains a stubborn and occasionally homicidal female vampire, a powerful and overprotective male vampire who refuses to lose her, and scenes of a sexual, explicit nature.

The Rogue's Wager Apr 11 2021 London, 1821 Lord Robert Dennington, the Marquess of Westfield, has long reveled in the freedom afforded him as the ducal heir. He knows he must someday do right by the Somerset line, but he's in no hurry to give up his carefree existence. Helena Banbury is a bookkeeper in a gentleman's gambling club, adept at analyzing numbers and accounts but helpless for lack of influence. She's never belonged among the nobility on the gaming hell floors, but neither does she feel completely herself among the men who run the Hell and Sin Club, despite the fact that they are family. The once-illiterate girl from the streets wants more than the gilded walls her protective cage can offer. When Robert mistakenly enters her chambers one night, Helena is forced out of her predictable life and thrust into the glittering world of Society. Will the charms of the marquess prove more perilous than any danger she ever knew on the streets?
