The Art of the Book of Life Nov 28 2019 A tale packed with adventure, The Book of Life celebrates the power of friendship and family, and the courage to follow your dreams. To determine whether the heart of humankind is pure and good, two godlike beings engage in an otherworldly wager during Mexico's annual Day of the Dead celebration. They tether two friends, Manolo and Joaquin, into vying for the heart of the beautiful and fiercely independent Maria, with comical and sometimes dangerous consequences. This volume is an inspirational behind-the-scenes look at the making of the animated feature film The Book of Life, from visionary producer Guillermo del Toro (Pan's Labyrinth) and director Jorge R. Gutierrez (El Tigre: The Adventures of Manny Rivera).

Harmal Jun 15 2021 Harmal: The Genus Peganum is an in-depth treatment of one of the most commanding plants in the botanical kingdom. Humble in appearance, modest in its needs, Peganum harmala has been venerated for millennia as a Deity-manifesting entheogen and a powerful medicine. This book traverses harmal's medicinal chemistry, its possible role in the origins of religion, and its employment from ancient times to the present in the therapy of patients suffering from infections, infestations, metabolic derangements, neurological degeneration, visual weakness, and cancer. Its peculiar indolic compounds, known as harmala alkaloids, are now appreciated as exerting profound effects on the mind and on the body. These effects are the result of the alkaloids' interactions with, and binding to, serotonin receptors on the cell surfaces of neurons in the brain and lymphocytes in the blood, the latter constituting the diffuse structural basis of the immune system. This biphasic modulation by harmala alkaloids has led to a novel pharmacologic re-visioning presented herein for the first time, the concept of a "lymphoneuric syncytium" and its possible long term tuning via "somatodelic" as well as "psychedelic" effects. The scientific rationale underlying the use of harmal in the medicines of the past and the healing technologies of our future is developed through exhaustive and meticulous explorations in both ethnopharmacology and modern phytochemistry. The presentation is enhanced through appraisals of the effects of harmal in two clinical cancer case scenarios, and of intentional inebriation and "provings" by one of the authors and a psychiatric colleague. The noted and esteemed botanically-trained physician Dr. Andrew Weil states in his Preface that this "monumental" volume will become the standard reference work in the field. Harmal: The Genus Peganum will be an invaluable addition to the personal libraries of professional pharmacognosists, botanists, physicians, psychologists, neuroscientists, and all persons interested in the interrelationship of consciousness, medicine, and coevolution.

NATØ: Narrative Architecture in Postmodern London Jun 27 2022 Chronicling the last radical architectural group of the twentieth century – NATØ (Narrative Architecture Today) – who emerged from the Architectural Association at the start of the 1980s, this book explores the group's work which echoed a wider artistic and literary culture that drew on the specific political, social and physical condition of 1980s London. It traces NATØ's identification with a particular stream of post-punk, postmodern expression: a celebration of the abject, an aesthetic of entropy, and a do-it-yourself provisionality. NATØ has most often been documented in reference to Nigel Coates (the instigator of NATØ), which has led to a one-sided, one-dimensional record of NATØ's place in architectural history. This book sets out a more detailed, contextual history of NATØ, told through photographs, drawings, and ephemera, restoring a truer

polyvocal narrative of the group's ethos and development.

Nightwolves Coalition Oct 08 2020 Volume One: Nightwolves Coalition starts the tale of Catrina who flies to New York to be with her mates of which there are three (Demetri, Andre and Antonio Caberelli). On the way there is an attempted hi-jacking and Catrina steps up to save the passengers from the takeover. In doing so, she exposes herself as a vampire to Special Forces. Now she must clean up her mess and make a deal with the military. The military had been having problems completing missions successfully due to very unusual things happening in the field. Catrina and her team may be their answer. However, the military finds the reasons why things have been going strange on missions. It's the beginning of high adventure and unusual situations even Special Forces may be challenged to overcome.

Law and the Arms Trade Nov 08 2020 This ground-breaking book offers an extensive legal analysis-grounded in public, EU, and international law-of arms trade regulation, integrated with insights drawn from international relations. The sale of weapons and related technologies is, globally, one of the most politically controversial and ethically contentious forms of commerce. Intimately connected with sustaining repressive governments and violations of international human rights and humanitarian law, arms exports are also a central element in the economic and strategic policies of the governments of all large industrial states. They have also been the source of abundant corruption, and of serious challenges to the norms and effectiveness of constitutional accountability in democratic states. On paper, the arms trade is heavily regulated: national legislation and international treaties are in place which purport to prohibit certain transactions and limit others. Yet despite its importance, legal and international relations scholarship on the subject has been surprisingly limited. This book fills this gap in the literature by examining and comparing the export control regimes of eight leading nations - USA, Russia, the UK, France, Germany, Sweden, China, and India - with chapters contributed by leading experts in the field of law and international relations.

The Shock Doctrine Apr 01 2020 The bestselling author of No Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

Educated Sep 18 2021 #1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University "Extraordinary . . . an act of courage and self-invention."—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR • BILL GATES'S HOLIDAY READING LIST • FINALIST: National Book Critics Circle's Award in Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . Despite the singularity of [Westover's] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?"—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • Book Riot • Pamela Paul, KOED • New York Public Library

Five Days at Memorial Aug 30 2022 NEW YORK TIMES BESTSELLER • The award-winning book that inspired an Apple Original series from Apple TV+ • A landmark investigation of patient deaths at a New Orleans hospital ravaged by Hurricane Katrina—and the suspenseful portrayal of the quest for truth and justice—from a Pulitzer Prize-winning physician and reporter “An amazing tale, as inexorable as a Greek tragedy and as gripping as a whodunit.”—Dallas Morning News After Hurricane Katrina struck and power failed, amid rising floodwaters and heat, exhausted staff at Memorial Medical Center designated certain patients last for rescue. Months later, a doctor and two nurses were arrested and accused of injecting some of those patients with life-ending drugs. Five Days at Memorial, the culmination of six years of reporting by Pulitzer Prize winner Sheri Fink, unspools the mystery, bringing us inside a hospital fighting for its life and into the most charged questions in health care: which patients should be prioritized, and can health care professionals ever be excused for hastening death? Transforming our understanding of human nature in crisis, Five Days at Memorial exposes the hidden dilemmas of end-of-life care and reveals how ill-prepared we are for large-scale disasters—and how we can do better. Finding Latinx Jan 11 2021 Latinos across the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, “Latinx.” She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the “Las Poderosas” who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how “Latinx” has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of reportage, Finding Latinx calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.

COVID-19 Conspiracy Theories Sep 26 2019 As the novel coronavirus (Covid-19) spread around the world, so did theories, stories, and conspiracy beliefs about it. These theories infected communities from the halls of Congress to Facebook groups, spreading quickly in newspapers, on various social media and between friends. They spurred debate about the origins, treatment options and responses to the virus, creating distrust towards public health workers and suspicion of vaccines. This book examines the most popular Covid-19 theories, connecting current conspiracy beliefs to long-standing fears and urban legends. By examining the vehicles and mechanisms of Covid-19 conspiracy, readers can better understand how theories spread and how to respond to misinformation.

Sisters: A Graphic Novel Jun 23 2019 Raina Telgemeier's #1 New York Times bestselling, Eisner Award-winning companion to Smile! Raina can't wait to be a big sister. But once Amara is born, things aren't quite how she expected them to be. Amara is cute, but she's also a cranky, grouchy baby, and mostly prefers to play by herself. Their relationship doesn't improve much over the years, but when a baby brother enters the picture and later, something doesn't seem right between their parents, they realize they must figure out how to get along. They are sisters, after all. Raina uses her signature humor and charm in both present-day narrative and perfectly placed flashbacks to tell the story of her relationship with her sister, which unfolds during the course of a road trip from their home in San Francisco to a family reunion in Colorado.

Learning and Not Learning in the Heritage Language Classroom Jul 29 2022 *Learning and Not Learning in the Heritage Language Classroom*, a critical ethnography, describes the first year of a teacher-founded charter high school and presents a case-study of compulsory Spanish heritage language instruction with two Spanish-language teachers, one English dominant and the other Spanish dominant. The study follows the same cohort of Mexican-origin students to their humanities-English class, bringing into focus what works and what does not with this group of learners. Unlike many Spanish heritage language studies, the students in this book did not choose to take part in Spanish class and thus provide unusually raw feedback on their teachers and classes. The engagement and resistance of these students suggests pedagogical directions for engaging Spanish heritage language learners. The book will be of interest to scholars, administrators, students and teachers involved in the delivery and assessment of heritage language classes.

The Whiskey Merchant's Diary Mar 01 2020 “Business during the Week was very dull. The great Plague of the Year Cholera is driving every Country [person] and Merchants from Surrounding Cities away. The City looks like a desert Compared to its usual animated appearance. Last week ending the 6th there were 78 deaths from it, altogether 173. This week ending yesterday 278 deaths 189 from Cholera. People parting for a day or so, bid farewell to each other. My Partners family are fortunately in the Country. I and Clemens sleep in the Same bed, in Case of a Sudden attack to be within groaning distance. . .” —Diary entry for Sunday, May 13th, 1849 Joseph J. Mersman was a liquor merchant, a German American immigrant who aspired—with success—to become a self-made man. The diary he kept from 1847 to 1864 provides an intriguing account of life in Cincinnati and St. Louis—America's emerging frontier. Outside of Gold Rush diaries and emigration journals, few narrative records of the antebellum period have been published. As a record of both the man and the time in which he lived, *The Whiskey Merchant's Diary* is a valuable resource for social historians, providing significant details about bachelorhood, whiskey making, ballroom dancing, circus history, card games, steamboat transportation, gender roles, theater history, and Victorian etiquette. The diary is also the story of a man who confronted serious disease, and his descriptions of cholera and syphilis are exceptional. Complemented by photographs, maps, and period advertisements, the diary reveals how a German American businessman worked to establish himself in his newly adopted country during an era that was rife with opportunity. Linda A. Fisher's professional training as a physician makes the public health aspect of this project particularly valuable, and her annotations throughout serve to emphasize the significance of Mersman's firsthand observations.

Horrid May 15 2021 From the author of *You Must Not Miss* comes a haunting contemporary horror novel that explores themes of mental illness, rage, and grief, twisted with spine-chilling elements of Stephen King and Agatha Christie. Following her father's death, Jane North-Robinson and her mom move from sunny California to the dreary, dilapidated old house in Maine where her mother grew up. All they want is a fresh start, but behind North Manor's doors lurks a history that leaves them feeling more alone . . . and more tormented. As the cold New England autumn arrives, and Jane settles in to her new home, she finds solace in old books and memories of her dad. She steadily begins making new friends, but also faces bullying from the resident "bad seed," struggling to tamp down her own worst nature in response. Jane's mom also seems to be spiraling with the return of her childhood home, but she won't reveal why. Then Jane discovers that the "storage room" her mom has kept locked isn't for storage at all -- it's a little girl's bedroom, left untouched for years and not quite as empty of inhabitants as it appears . . . Is it grief? Mental illness? Or something more . . . horrid?

Temporomandibular Disorders Dec 30 2019 Temporomandibular disorders (TMDs), are a set of more than 30 health disorders associated with both the temporomandibular joints and the muscles and tissues of the jaw. TMDs have a range of causes and often co-occur with a number of overlapping medical conditions, including headaches, fibromyalgia, back pain and irritable bowel syndrome. TMDs can be transient or long-lasting and may be associated with problems that range from an occasional click of the jaw to severe chronic pain involving the entire orofacial region. Everyday activities, including eating and talking, are often difficult for people with TMDs, and many of them suffer with severe chronic pain due to this condition. Common social activities that most people take for granted, such as smiling, laughing, and kissing, can become unbearable. This dysfunction and pain, and its associated suffering, take a terrible toll on affected individuals, their families, and their friends. Individuals with TMDs often feel stigmatized and invalidated in their experiences by their family, friends, and, often, the health care community. Misjudgments and a failure to understand the nature and depths of TMDs can have severe consequences - more pain and more suffering - for individuals, their families and our society. Temporomandibular Disorders: Priorities for Research and Care calls on a number of stakeholders - across medicine, dentistry, and other fields - to improve the health and well-being of individuals with a TMD. This report addresses the current state of knowledge regarding TMD research, education and training, safety and efficacy of clinical treatments of TMDs, and burden and costs associated with TMDs. The recommendations of Temporomandibular Disorders focus on the actions that many organizations and agencies should take to improve TMD research and care and improve the overall health and well-being of individuals with a TMD.

The Psychopolitics of Food Mar 13 2021 The Psychopolitics of Food probes into the contemporary 'foodscape', examining culinary practices and food habits and in particular the ways in which they conflate with neoliberal political economy. It suggests that generic alimentary and culinary practices constitute technologies of the self and the body and argues that the contemporary preoccupation with food takes the form of 'rites of passage' that express and mark the transition from a specific stage of neoliberal development to another vis-à-vis a re-configuration of the alimentary and sexual regimes. Even though these rites of passage are taking place on the borders of cultural bi-polarities, their function, nevertheless, is precisely to define these borders as sites of a neoliberal transitional demand; that is, to produce a cultural bifurcation between 'eating orders' and 'eating dis-orders', by promoting and naturalising certain social logics while simultaneously rendering others as abject and anachronistic. The book is a worthwhile read for researchers and advanced scholars in the areas of food studies, critical psychology, anthropology and sociology.

Above the Clouds Oct 20 2021 "Kilian Jornet is the most dominating endurance athlete of his generation."—NEW YORK TIMES "Inspiring and humbling"—ALEX HONNOLD The most accomplished mountain runner of all time contemplates his record-breaking climbs of Mount Everest in this profound memoir—an intellectual and spiritual journey that moves from the earth's highest peak to the soul's deepest reaches. Kilian Jornet has broken nearly every mountaineering record in the world and twice been named National Geographic Adventurer of the Year. In 2018 he summited Mount Everest twice in one week—without the help of bottled oxygen or ropes. As he recounts a life spent studying and ascending the greatest peaks on earth, Jornet ruminates on what he has found in nature—simplicity, freedom, and spiritual joy—and offers a poetic yet clearheaded assessment of his relationship to the mountain . . . at times his opponent, at others, his greatest inspiration.
