Conflict 101 Oct 03 2020 From mild disagreements to major personnel blowouts, conflict in the workplace is unavoidable. Drawing lightheartedly from stories of her own slipups and disagreements as well as examples from her twenty years of experience as a conflict resolution professional, author Susan Shearouse reveals how conflict is created, how to respond to it, and how to manage it more effectively so that your team can get back to doing what it does best: producing top results for your organization. *Conflict 101* employs research, humor, and oh-so-relatable anecdotes to help readers more deeply understand what it takes to build trust, harness negative emotions, encourage apologies and forgiveness, use a solution-seeking approach, and say what needs to be said in the workplace to move past conflicts. Whether it's a fight over resources, a disagreement about how to get things done, or an argument stemming from perceived differences in identities or values, the manager's role is to navigate relationships, build compromises, and encourage better collaboration. In doing so, you'll not only become a stronger manager--you'll build a much stronger team.

When the Adults Change, Everything Changes Feb 07 2021 In *When the Adults Change, Everything Changes: Seismic Shifts in School Behaviour*, Paul Dix upends the debate on

behaviour management in schools and offers effective tips and strategies that serve to end the search for change in children and turn the focus back on the adults. You can buy in the best behaviour tracking software, introduce 24/7 detentions or scream 'NO EXCUSES' as often as you want - but ultimately the solution lies with the behaviour of the adults. It is the only behaviour over which we have absolute control. Drawing on anecdotal case studies, scripted interventions and approaches which have been tried and tested in a range of contexts, from the most challenging urban comprehensives to the most privileged international schools, behaviour training expert and Pivotal Education director Paul Dix advocates an inclusive approach that is practical, transformative and rippling with respect for staff and learners. An approach in which behavioural expectations and boundaries are exemplified by people, not by a thousand rules that nobody can recall. *When the Adults Change, Everything Changes* illustrates how, with their traditional sanction- and exclusion-led methods, the 'punishment brigade' are losing the argument. It outlines how each school can build authentic practice on a stable platform, resulting in shifts in daily rules and routines, in how we deal with the angriest learners, in restorative practice and in how we appreciate positive behaviour. Each chapter is themed and concludes with three helpful checklists Testing, Watch out for and Nuggets designed to help you form your own behaviour blueprint. Throughout the book both class teachers and school leaders will find indispensable advice about how to involve all staff in developing a whole school ethos built on kindness, empathy and understanding. Suitable for all head teachers, school leaders, teachers, NQTs and classroom assistants in any phase or context, including SEND and alternative provision settings who are looking to upgrade their own classroom management or school behaviour plan. *When the Adults Change Everything Changes* was a silver winner 2017 Foreword INDIES Awards in the Education category. Named one of Book Authority's best education reform books of all time. Named one of Book Authority's best education books of all time.

Narrative Mediation Oct 27 2022 In this groundbreaking book, John Winslade and Gerald Monk -- leaders in the narrative therapy movement--introduce an innovative conflict resolution paradigm that is a revolutionary departure from the traditional problem-solving, interest-based model of resolving disputes. The narrative mediation approach encourages the conflicting parties to tell their personal "story" of the conflict and reach resolution through a profound understanding of the context of their individual stories. The authors map out the theoretical foundations of this new approach to conflict resolution and show how to apply specific techniques for the practical application of narrative mediation to a wide-variety of conflict situations.

A History of Alternative Dispute Resolution Aug 01 2020 *A History of Alternative Dispute Resolution* offers a comprehensive review of the various types of peaceful practices for resolving conflicts. Written by Jerome Barrett—a longtime practitioner, innovator, and leading historian in the field of ADR—and his son Joseph Barrett, this volume traces the evolution of the ADR process and offers an overview of the precursors to ADR, including negotiation, arbitration, and mediation. The authors explore the colorful beginnings of ADR using illustrative examples from prehistoric Shaman through the European Law Merchant. In addition, the book offers the historical context for the use of ADR in the arenas of diplomacy and business.

Trouble at the Watering Hole Apr 28 2020 The forest animals have a problem-the watering hole isn't big enough. Emo, a bear cub, and his friend, a bird named "Chickie," know there must be a way to stop the fighting. Together with the forest animals, Emo and Chickie explore ways to work things out in a positive, constructive way. Skills that everyone can learn.

Elusive Peace Mar 08 2021 This in-depth analysis goes behind the headlines to understand why crucial negotiations fail. The author argues that diplomats often enter negotiations with flawed assumptions about human behavior, sovereignty, and power. Essentially, the international community is using a model of European diplomacy dating back to the 18th century to solve the complex problems of the 21st century. Through numerous examples, the author shows that the key failure in current diplomatic efforts is the entrenched belief that nations, through their representatives, will act rationally to further their individual political, economic, and strategic interests. However, the contemporary scientific understanding of how people act and see their world does not support this assumption. On the contrary, research from decision-making theory, behavioral economics, social neuropsychology, and current best practices in mediation indicate that emotional and irrational factors often have as much, if not more, to do with the success or failure of a mediated solution. Reviewing a wide range of conflicts and negotiations, Noll demonstrates that the best efforts of negotiators often failed because they did not take into account the deep-seated values and emotions of the disputing parties. In conclusion, Noll draws on his own long experience as a professional mediator to describe the process of building trust and creating a climate of empathy that is the key to successful negotiation and can go a long way toward resolving even seemingly intractable conflicts.

Speaking of Violence Sep 26 2022 In the context of ongoing or historical violence, people tell stories about what happened, who did what to whom and why. Yet frequently, the speaking of violence reproduces the social fractures and delegitimizes, again, those that struggle against their own marginalization. This speaking of violence deepens conflict and all too often perpetuates cycles of violence. Alternatively, sometimes people do not speak of the violence and it is erased, buried with the bodies that bear it witness. This reduces the capacity of the public to address issues emerging in the aftermath of violence and repression. This book takes the notion of "narrative" as foundational to conflict analysis and resolution. Distinct from conflict theories that rely on accounts of attitudes or perceptions in the heads of individuals, this narrative perspective presumes that meaning, structured and organized as narrative processes, is the location for both analysis of conflict, as well as intervention. But meaning is political, in that not all stories can be told, or the way they are told delegitimizes and erases others. Thus, the critical narrative theory outlined in this book offers a normative approach to narrative assessment and intervention. It provides a way of evaluating narrative and designing "better-formed" stories: "better" in that they are generative of sustainable relations, creating legitimacy for all parties. In so doing, they function aesthetically and ethically to support the emergence of new histories and new futures. Indeed, critical narrative theory offers a new lens for enabling people to speak of violence in ways that undermine the intractability of conflict

When Stories Clash May 22 2022 In the stories that people tell about conflict, the relationship narrative is commonly shaped to fit the conflict story. But there are always other relationship stories that can be told. This edition shows how to find and grow a counter story to the conflict story and to help people make choices about which story they want to perform.

Resolving Personal and Organizational Conflict Jan 18 2022 "Resolving Personal and Organizational Conflicts and Disputes offers specific methods for assisting disputing parties to communicate their problems without sinking into the twin traps of demonization and victimization. In addition, the authors show how to encourage people and organizations in conflict to identify new ways of sustaining supportive relationships and transforming anger into awareness, dialogue, and reconciliation."--BOOK JACKET.

High Conflict Oct 15 2021 When we are baffled by the insanity of the “other side”—in our politics, at work, or at home—it’s because we aren’t seeing how the conflict itself has taken over. That’s what “high conflict” does. It’s the invisible hand of our time. And it’s different from the useful friction of healthy conflict. That’s good conflict, and it’s a necessary force that pushes us to be better people. High conflict is what happens when discord distills into a good-versus-evil kind of feud, the kind with an us and a them. In this state, the brain behaves differently. We feel increasingly certain of our own superiority, and everything we do to try to end the conflict, usually makes it worse. Eventually, we can start to mimic the behavior of our adversaries, harming what we hold most dear. In this “compulsively readable” (Evan Osnos, National Book Award-winning author) book, New York Times bestselling author and award-winning journalist Amanda Ripley investigates how good people get captured by high conflict—and how they break free. Our journey begins in California, where a world-renowned conflict expert struggles to extract himself from a political feud. Then we meet a Chicago gang leader who dedicates his life to a vendetta—only to realize, years later, that the story he’d told himself about the conflict was not quite true. Next, we travel to Colombia, to find out whether thousands of people can be nudged out of high conflict at scale. Finally, we return to America to see what happens when a group of liberal Manhattan Jews and conservative Michigan corrections officers choose to stay in each other’s homes in order to understand one another better, even as they continue to disagree. All these people, in dramatically different situations, were drawn into high conflict by similar forces, including conflict entrepreneurs, humiliation, and false binaries. But ultimately, all of them found ways to transform high conflict into good conflict, the kind that made them better people. They rehumanized and recategorized their opponents, and they revived curiosity and wonder, even as they continued to fight for what they knew was right. People do escape high conflict. Individuals—even entire communities—can short-circuit the feedback loops of outrage and blame, if they want to. This is an “insightful and enthralling” (The New York Times Book Review) book—and a mind-opening new way to think about conflict that will transform how we move through the world.

The Handbook of Conflict Resolution May 30 2020 The Handbook of Conflict Resolution, Second Edition is written for both the seasoned professional and the student who wants to deepen their understanding of the processes involved in conflicts and their knowledge of how to manage them constructively. It provides the theoretical underpinnings that throw light on the fundamental social psychological processes involved in understanding and managing conflicts at all levels—interpersonal, intergroup, organizational, and international. The Handbook covers a broad range of topics including information on cooperation and competition, justice, trust development and repair, resolving intractable conflict, and working with culture and conflict. Comprehensive in scope, this new edition includes chapters that deal with language, emotion, gender, and personal implicit theories as they relate to conflict.

Personal Conflict Management Oct 23 2019 Personal Conflict Management utilizes a modernized theory/skill approach to interpersonal conflict, placing equal emphasis on the theoretical and practical. Supporting the notion that there is not one correct approach to conflict management, and utilizing the authors’ shared experiences as mediators and organizational facilitators, this text demonstrates the value of collaborative models for resolving conflict and the necessity and benefits in understanding competitive approaches. Through the inclusion of both competitive and cooperative theories, the authors present contrasting perspectives of conflict management. Beginning with an introduction to conflict, the text examines the major approaches and theories of conflict management. Following a discussion of the causes and variables which

exist within conflicts, the skills necessary for conflict management are analyzed, including listening, the ability to seek information, the importance of understanding personality types and behavior patterns, negotiation, and conflict assessment. The final two sections of the text take the reader beyond the basics, exploring the difficulties encountered in conflict management, the aftermath to a conflict, and conflicts in context, applying the theoretical concepts to everyday situations. Written in an academic yet reader-friendly style, this textbook is enjoyable and thought-provoking for both students and instructors. Case studies, examples, essay suggestions, discussion questions, etc support an interactive environment that optimizes learning opportunities. Instructors will find these features useful in the development of classroom discussions and assignments, while students will benefit from the opportunity to examine their own conflict behavior and enhance their skills in conflict management.

Redeeming Conflict Jun 18 2019 It seems counterintuitive: conflict can be a blessing. But Catholic theologian and conflict mediator Ann M. Garrido identifies conflict as a potentially fruitful exchange that arises from living and working together in the diverse world God created. Garrido, author of the bestselling *Redeeming Administration*, offers twelve practical habits for responding to conflict, pairs each habit with a spiritual companion from history, and offers

questions and prayers for growth. In *Redeeming Conflict*, Ann Garrido explains that conversion comes through conversation, that there is a difference between “the truth” and “my truth,” and that you should be curious and practice “Pentecost listening”—or empathic listening—even if you think something is way off base. Garrido will help Christian leaders discover how to speak directly with colleagues about tensions and about how to know themselves well enough to keep from becoming defensive in the face of negative feedback. She uses saintly examples to illustrate her points, calling upon stories of St. Francis and a Muslim sultan, Leo the Great, Archbishop Óscar Romero, and Our Lady, Undoer of Knots. Garrido also offers sample exercises and tools to work through conflict within an organization and provides self-assessment questions and a prayer at the end of each chapter to help apply it to your personal and professional life. A small group discussion guide and a parish resource guide, which features homily and bulletin aids are available as a free downloads for the book. *Redeeming Conflict* was a 2017 winner of the Association of Catholic Publishers Excellence in Publishing Award: Resources for Ministry (Second Place) and Honorable Mention in the 2017 Catholic Press Association Book Awards: Professional Books.

The Joy of Conflict Resolution Jul 24 2022 All you need to understand the dynamics of conflict -- and the joy of resolution

Root Narrative Theory and Conflict Resolution Nov 23 2019 This book introduces Root Narrative Theory, a new approach for narrative analysis, decoding moral politics, and for building respect and understanding in conditions of radical disagreement. This theory of moral politics bridges emotion and reason, and, rather than relying on what people say, it helps both the analyst and the practitioner to focus on what people mean in a language that parties to the conflict understand. Based on a simple idea—the legacy effects of abuses of power—the book argues that conflicts only endure and escalate where there is a clash of interpretations about the history of institutional power. Providing theoretically complex but easy-to-use tools, this book offers a completely new way to think about storytelling, the effects of abusive power on interpretation, the relationship between power and conceptions of justice, and the origins and substance of ultimate values. By locating the source of radical disagreement in story structures and political history rather than in biological or cognitive systems, Root Narrative Theory bridges the divides between reason and emotion, realism and idealism, without losing sight of the inescapable human element at work in the world's most devastating conflicts. This book will be of much interest to students of conflict resolution, peace studies and International Relations, as well as to practitioners of conflict resolution.

Improvisational Negotiation Nov 04 2020 *Improvisational Negotiation* presents an original approach for mediators, negotiators, and other dispute resolution professionals. Drawing on his own experience plus those of his colleagues, Jeffrey Krivis offers the reader dramatic, well-crafted, and highly instructive stories about people in conflict - families, organizations, corporations - and shows how mediated negotiations help them to reach a successful resolution. Unlike most books on the topic, *Improvisational Negotiation* does not focus on theory, philosophy, or formulaic procedures. The book highlights entertaining true stories that illuminate the skills and tools a good mediator uses to direct a successful negotiation and then asks the questions: What happened? and What strategies can we learn?

A Bad Case of Tattle Tongue Aug 13 2021 A Book that Helps Kids Learn the Difference Between Tattling and Telling No one likes "Josh the Tattler" because he tattles way too much. He tattles on his classmates, his brother, and even his dog! But one night Josh wakes up to find that his tongue is very long, yellow, covered in bright purple spots, and Itchy, Itchy, Scratchy, Scratchy... Will a bad case of Tattle Tongue teach him a lesson? *A Bad Case of Tattle Tongue* gives teachers and counselors a humorous, cleverly creative way to address the time-consuming tattling-related issues that often sap classroom energy and thwart teaching opportunities. Parents who "battle the tattle" at home, on the playground, in the grocery store, or anywhere else can use this book to both entertain and enlighten their children about "The Tattle Rules." Every adult who desires to help children understand the differences between tattling and the need to warn others about important matters needs this book!

The Pencil Jul 12 2021 A Lonely pencil timidly draws a boy, a dog and other items, but soon faces a problem as his creations begin demanding changes, and when he draws an eraser to make them happy, the real trouble begins.

Teaching Conflict Resolution with the Rainbow Kids Program Mar 28 2020 Based on the view that making social concepts and feelings concrete would help children in primary grades to take turns, cooperate, and solve their problems respectfully, this curriculum uses a story about the Rainbow Kids, an imaginary community of children, to introduce children to social concepts and conflict resolution skills. The Rainbow Kids experience emotions that are conveyed by the weather around them. These simple "sunny" and "cloudy" metaphors turn abstract notions of behavior into physical expressions young children can easily comprehend. Part 1 of the curriculum guide describes the impetus for the program, discusses how the program works, summarizes the story, and details the procedures involved in presenting the program. Part 2 contains the seven lessons and two activities comprising the program; this part includes sample program materials in six appendices, and lists selected resources for elementary school teachers. Part 3 is a separate booklet for students containing "The Rainbow Kids" story. (Contains 15 references.) (KB)

Conflict Coaching Fundamentals Aug 25 2022 We naturally create stories to help us making meaning of our world, but in conflict situations the kinds of stories we typically tell ourselves can actually make it harder for us to manage and resolve the conflict constructively. This book provides an accessible framework for understanding why people tell their conflict stories the way they do, and how to help them move away from conflict stories that prevent them from understanding and responding to conflict in an effective way. Presented using highly engaging and accessible cases, the book is designed to help people working with others in conflict to fully support them by understanding which areas of the conflict story to focus their attention on, and using practical techniques to support people to rewrite their story into a more constructive one to better manage the situation. The book also provides practical strategies to help people who are themselves in a conflict scenario to rewrite and enact a version of their conflict story that helps them to more constructively manage, and often resolve, their situation. A conflict management coaching system is introduced that is designed to address the particular problems created by dysfunctional conflict stories. This is a book specifically for those who work with people in conflict (mediators, conflict coaches, managers, lawyers, HR staff, teachers) and also for anyone who wishes to better understand their own experience of conflict.
