[The Alchemical Body](#) Jun 23 2019 The Alchemical Body excavates and centers within its Indian context the lost tradition of the medieval Siddhas. Working from previously unexplored alchemical sources, David Gordon White demonstrates for the first time that the medieval disciplines of Hindu alchemy and hatha yoga were practiced by one and the same people, and that they can be understood only when viewed together. White opens the way to a new and more comprehensive understanding of medieval Indian mysticism, within the broader context of south Asian Hinduism, Buddhism, Jainism, and Islam. "White proves a skillful guide in disentangling historical and theoretical complexities that have thus far bedeviled the study of these influential aspects of medieval Indian culture."—Yoga World "Anyone seriously interested in finding out more about authentic tantra, original hatha yoga, embodied liberation ... sacred sexuality, paranormal abilities, healing, and of course alchemy will find White's extraordinary book as fascinating as any Tom Clancy thriller." —Georg Feuerstein, Yoga Journal

[Information Structure and the Dynamics of Language Acquisition](#) May 15 2021 The papers in this volume focus on the impact of information structure on language acquisition, thereby taking different linguistic approaches into account. They start from an empirical point of view, and examine data from natural first and second language acquisition, which cover a wide range of varieties, from early learner language to native speaker production and from gesture to Creole prototypes. The central theme is the interplay between principles of information structure and linguistic structure and its impact on the functioning and development of the learner's system. The papers examine language-internal explanatory factors and in particular the communicative and structural forces that push and shape the acquisition process, and its outcome. On the theoretical level, the approach adopted appeals both to formal and communicative constraints on a learner's language in use. Two empirical domains provide a 'testing ground' for the respective weight of grammatical versus functional determinants in the acquisition process: (1) the expression of finiteness and scope relations at the utterance level and (2) the expression of anaphoric relations at the discourse level.

The History of Big Safari Apr 01 2020 For more than half a century, Big Safari-modified aircraft have performed dangerous and essential missions to collect intelligence, conduct surveillance and reconnaissance, and engage in special operations missions around the globe in the interest of national security. These state-of-the-art aircraft have been flown, operated, and maintained by men and women whose dedication and commitment have made the world a safer place. In The History of Big Safari, author Colonel Bill Grimes, a retired US Air Force officer, presents a history of this program, which has been in existence for more than sixty years. Born as a special acquisition program in 1952, Big Safari has been in a unique position to save lives by rapidly fielding essential systems with a quick-reaction capability to ensure decision makers on the battlefield and at the Pentagon have timely intelligence to plan and execute operations. Grimes shows how, without a special acquisition program such as Big Safari, the nation's ability to react to evolving dangers and threats would be mired in bureaucracy when timely responses are critical. With detailed cutaway illustrations revealing aircraft modifications and mission equipment, The History of Big Safari also includes photographs, sidebars, and anecdotes. It goes behind the scenes with the men and women who participated in the challenging projects and daring missions. It shares the development of cutting-edge technology and special mission aircraft, as well as the global events that necessitated these once-classified programs. Finally, it provides insight into long-veiled projects, operations, and missions that comprise the world under the purview of Big Safari.

What Do We Tell the Children? Critical Essays on Children's Literature May 27 2022 This peer-reviewed collection of critical essays on children's literature addresses contemporary debates regarding what constitutes "suitable" texts for young audiences. The volume examines what adult writers "tell" their child readers with particular focus on the following areas: the representation of sexuality, gender and the body; the treatment of death and trauma; concepts of race, prejudice and national identity; and the use of children's literature as a tool for socializing, acculturating, politicizing and educating children. The focus of the collection is on Irish and international fiction addressed at readers from mid-childhood to young adulthood. One section of the book examines what child readers were told in the past while another section examines young readers' capacity for self-invention through the participatory culture of the twenty-first century. Topics explored include the controversial issue of teenage prostitution and the commodification of the male body in contemporary young adult fiction, the allure of celebrity and the impact of today's surveillance culture on young people, the representation of the Holocaust for young readers, and representations of Muslim characters and culture in a post-9/11 mediascape. This collection, which offers insights into a range of literary constructions and representations of childhood, will be a valuable resource for students and scholars working in children's literature, youth culture and childhood studies. Contributors: Jane Suzanne Carroll, Norma Clarke, Shehrazade Emmambok, Michele Gill, Marnie Hay, Eimear Hegarty, Nora Maguire, Kerry Mallan, Anne Markey, Kimberley Reynolds, Beth Rodgers, Kay Sambell. Research shows that we are likely to lie or intentionally deceive others several times a day or in one out of every four conversations that lasts more than 10 minutes. Key Features: More than 360 authored by key figures in the field are organized A-to-Z in two volumes, which are available in both print and electronic formats. Entries are written in a clear and accessible style that invites readers to explore and reflect on the use of lying and self-deception. Each article concludes with cross references to related entries and further readings.
